

**Project Title: Popularization of Astronomy through Mobile Planetarium
(Taramandal)**

Period of activity 2012-2014 (2 years)

Project Completion Report

Implemented by:

Millennium India Education Foundation

13,Community Centre,East of Kailash,New Delhi

Ph :09810301261 Email; mief2@gmail.com

Supported by:

National Council for Science and Technology Communication Division

Dept.of Science & Technology, Govt.of India

Technology Bhavan,New Mehrauli Road New Delhi

INDEX:

1. SUMMARISED REPORT:

- a) PROJECT ACTIVITIES CONDUCTED
- b) ACHIEVEMENTS
- c) FEEDBACK
- d) WEAKNESSES/DIFFICULTIES ENCOUNTERED DURING PROJECT IMPLEMENTATION PERIODS
- e) RECOMMENDATIONS
- f) PROJECT ACTIVITIES (POST COMPLETION OF PROJECT PERIOD)

2. ANNEXURES :

- i.) FEED BACK FORM
- ii) ANALYSIS & OBSERVATIONS FROM ASTRONOMY QUIZES
- iii) FEW FEED BACK REPORTS FROM STUDENTS
- iv) FEW FEED BACK REPORTS FROM SCHOOLS
- v) LIST OF SCHOOLS AND INSTITUTIONS COVERED (ALPHABETIC ORDER)
- vi) MASTER RESOURCE PERSONS (Trainers) BIODATA
- vii) ASTRONOMY QUIZ QUESTIONNAIRE SAMPLE
- viii) ABOUT MILLENNIUM INDIA EDUCATION FOUNDATION
- ix) SNAPSHOTS
- x) COPY OF PARTICIPATION CERTIFICATE

PROJECT ACTIVITIES CONDUCTED

Activities were conducted as was envisaged in the project proposal.

Included **On-the-Spot Quiz** and **Astronomy Shows** using mobile planetarium (Taramandal) were organized for school students in schools in Delhi NCR and also at National Science Centre, Pragati Maidan from April 2011 to November 2012 as part of the project in order to achieve the above mentioned objectives.

In addition, astronomy shows were also held for the general public *excluding* the students, particularly during the time of their examinations or when the schools were closed for vacations etc.

The overall approach adopted:

i. Selection of schools:

- a. **Direct contact with schools to join this program:** More than 500 middle/secondary and senior secondary schools, both Govt. and public, in Delhi state were directly contacted to join this awareness program either as *Nodal Schools* and invite their neighborhood schools to send their children (8th class onwards) to see the night sky shows or be allowed to conduct free shows in their schools for their own students.
- b. **Through Director of Education, Delhi State**
- c. **Through Director, NDMC schools**
- d. **Through Assistant Commissioner Kendriya Sangathan (Delhi) Kendriya Vidyalayas**
- e. **Through National Science centre at Pragati Maidan.**

On the spot written quiz: A multi-answer based written quiz was held at random amongst all students who saw the Taramandal shows.

- i. The quiz was conducted before the show to judge the extent of knowledge that each student possessed about astronomy. The general public was also quizzed.

4860 students participated in on-the-spot quizzes. The quiz was multi answer type with respondent asked to tick mark the right answer. Question wise answers have been analyzed and results are given against each question as under.

The most significant observation was that except for question nos. 1 and 2, more than 50% answers when put together were either unanswered or wrongly answered. This clearly indicated how ill informed these students were about astronomy sciences. Sample questionnaire is attached herewith.

2. ACHIEVEMENTS

- I. **Astronomy Shows: 2193 shows** were conducted during the project implementation period from April 2011 to November 2012. Of these, **1113 shows** were exclusively for school children.
- II. A record number of **49672 people and school children** sensitized from Delhi NCR participated in this project.
- III. **29631 students saw the astronomy shows during the period April 2011 to November 2012**
- IV. **287 schools** including 2 overseas schools from Muscat, were covered under this program. It included **44 schools** from other states and **61 Govt. schools** of Delhi NCT.
- V. **38 professional institutions** (colleges, academies, engineering colleges etc.) were also covered under this program.
- VI. **Shows were also conducted in rural areas, which included Hissar, Aligarh, Faridabad, Agra, Gurgaon etc.** Many rural-based schools were also covered during the period.

3. FEEDBACK

Astronomy shows were liked by one and all who saw it, be it students, teachers or general public.

- i. **Feedback forms were randomly filled up by students** who saw the shows. Almost all feedback forms received from students were very appreciative of the shows. **The student feedback had 5 questions that were to be rated as excellent, very good, good and satisfactory.**

More than 90% have been rated as very good followed by excellent and good. On some of the feedback forms, students had put up their remarks as well. These remarks have been given in the project completion report. Some of these feedback forms will be submitted as part of the project completion report in the form of CD.

Some examples of student comments are as under:

a. Kustabh Aggarwal Class VI K: Very good show, I heard many things, learned many things. I will talk to my parents and join astronomy.

b. Namrata Raina VII E: The show was spectacular and it was a nice time spending while looking at the stars, planets & constellations. Amazing!

c.Nitya Goyal VII-E: I liked the show very much.The way sir told us about stars,planets and sun,was like imagining ourselves in space.I have interest in Astronomy so I even joined astronomy club.I would like to enjoy the session once more.

d.Leela Moza VI-A: It was very magical moment for me.I had never seen anything like this.It was so beautiful and informative I wish had more of these things in school.Love astronomy.

e. Astha Singh VIA: It was an amazing session in which I learnt about celestial bodies.

f.Poorvi MangalVIA : It is a fun activity and I guess I'll enjoy it very much!!It was also an excellent experience.

ii. Schools gave their feedback on their school letterheads. All the schools were very appreciative of the efforts taken by the department to popularize amongst the students and wanted repeat visits at regular intervals.

All the feedback received from schools has been scanned and will be submitted as part of the project completion report in the form of CD.

Some examples of school feedback are as under:

- a. Raja Ram Mohan Roy Public School Rohini New Delhi:** "The shows were very informative and provided knowledge to the teachers and students about the position of stars in the sky in different seasons. It also explained about different constellations. Looking forward to your cooperation in future also."
- b. Ganga Devi Public School Badarpur New Delhi:** "The shows provided very good knowledge of stars, planets, sun and moon. This type of programmes should be repeated time to time for the enhancement of knowledge of students and teachers."
- c. Nagar Nigam Adarsh Prathmik Balika Vidyalaya Meethapur Badarpur New Delhi:** "The show was very interesting and knowledgeable. It provided very good knowledge of stars, planets, sun and moon. This type of programmes should be repeated time to time for enhancement of knowledge of students and teachers too."

iii. General public also gave their feedback at random

Success stories with regards to using mobile planetarium in general and in rural areas in particular.

Almost all the schools, both from rural places or within the state of Delhi, wanted such shows at regular intervals to update the knowledge of both students and teachers.

WEAKNESSES/DIFFICULTIES ENCOUNTERED DURING PROJECT IMPLEMENTATION PERIODS:

1. The delay in the start of project due to non supply of planetarium by National Council of Science Museum, Ministry of Culture, Govt. of India by about 1 year, was very crucial because many schools who had earlier agreed to become nodal schools as was originally envisaged under project proposal withdrew from their commitments when the planetarium was supplied to our organization in April 2011.
2. Supply of planetarium in April 2011 left us with no scope to conduct school-based shows for short duration of April to 1st week of May 2011 as the schools were first busy with their new academic session-related works and later were to break for almost 2-month summer break.
3. To make up for the loss of show days in schools between April to June in 2011 & 2012, MIEF had no options but to make the best use of planetarium by requesting National Science Centre Pragati Maidan to allow it to use their space and conduct astronomy shows and on-the-spot astronomy quizzes in their premises because this place was visited by both schools and general public at large round the year. By adopting this methodology, we were able to justify our project activities during school non working days. **On an average, schools work for just 190-200 days in an academic year.**
4. Government schools in Delhi do not undertake any activity unless directed by Director Education. Although MIEF approached and met Director Education Dept and its officers on many occasions but was not successful in getting a circular issued to Govt. schools to allow us to conduct shows in their schools. A good number of months were lost in following up with Education Dept. at various levels. Whatever shows were conducted for Govt. school students, could take place only at the National Science Centre Pragati Maidan.
5. Kendriya Sangathan Delhi and Director NDMC did issue instructions to their schools to allow holding of astronomy shows but the decision to allow or not was left to the concerned school principals. Still many shows could be conducted at school premises.
6. Public schools in Delhi were always welcome to allow hold astronomy shows in their schools.

1. Observations of On the spot multi answer Quiz on Astronomy

4860 students took part in on the spot quizzes . The quiz was multi answer type with respondent asked to tick mark the right answer. Question wise answers have been analyzed and results are given against each question as under. **The most significant observation was that except for question nos 1 and 2, more than 50% answers when put together were either unanswered or wrongly answered .It clearly indicated how ill informed these students about astronomy sciences.**

Answers to Astronomy Quiz questionnaires in brief (in percentiles after analysis):

Q.No	Question	Answer (in %)	
1	How did the universe come in existence: a. Bomb spot, b. Big Bang, c. Supernova Explosion, d. Nebula Explosion	Right answers:	96.6
		Wrong answers:	18.9
		Did no answer:	11.4
2	Our solar system is part of . a. Andromeda b. Milky Way,c. Orion,d. Gemini	Right answers:	76.3
		Wrong answers:	10.9
		Did no answer:	12.7
3	How much time does sun take to complete one revolution around centre of galaxy? a. ~ 205- 220 mill years,b. ~225-250 mill years,c. ~ 260- 280 mill years. d.~285-300 mill years	Right answers:	40.3
		Wrong answers:	35.8
		Did no answer:	23.8
4	The Distance between Earth and sun is known as.... a. Astronomical unit, b. Universe unit, c. Solar unit, d. Galaxy unit	Right answers:	34.5
		Wrong answers:	38.0
		Did no answer:	27.3
5	The star which lies on the celestial pole is known as.... a. Polaris,b. Orion,c. Sirius,d. Ginat Star	Right answers:	38.3
		Wrong answers:	34.6
		Did no answer:	27.0
6	What does the color of a star indicate? a. Pressure,b. Temperature,c. Humidity,d. Density	Right answers:	45.7
		Wrong answers:	26.9
		Did no answer:	27.4
7	Matter present in the center of sun is found in which State? a. Liquid, b. Solid,c. Gas and Plasma,d. In the form of light	Right answers:	39.3
		Wrong answers:	33.1
		Did no answer:	27.5
8	The name of the instrument use to measure the angle of star? a. Sextant, b. Telescope,c. Altimeter,d. Barometer	Right answers:	22.5
		Wrong answers:	48.6
		Did no answer:	28.7
9	Who is considered to be the father of modern Astronomy? a. Copernicus, b. Tolmy,c. Aryabhatta,d. Newton	Right answers:	24.8
		Wrong answers:	45.9
		Did no answer:	29.3
10	The Total Solar eclipse of 22 July 2009 was not seen in which country? a. Nepal,b. Japan,c. Bhutan,d. Australia	Right answers:	38.9
		Wrong answers:	37.4
		Did no answer:	23.5
